EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Steiner on April 7, 2005.

The application has been amended as follows:

In claim 10, line 5 after the term "layer" insert –initially--,

And in line 5 after the term "and" insert –then on--.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor render obvious the instantly claimed invention. There is no teaching in the art to first create projections on a substrate and then a mask. This is followed by a two step growth of semiconducting nitrides. The prior art does teaches growth of nitrides but not in the manner claimed. There is no reasoning nor motivation in the prior art to modify the prior art growth methods to arrive at the claimed invention. .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
